

Welcome to Canva

Canva has been designed to empower you to create incredible designs - everything from social media graphic to posters, presentations and marketing materials. Whether you're entirely new to design or a seasoned professional, we hope you find yourself at home designing in Canva.

01. Your design's new home

The Canva homepage is where all of your designs will be saved. You can come back here and access them at any time. To visit your home page go to www.canva.com.

02. Starting a new design

To create a new design, simply click on the icon of a design type such as 'social media', 'presentation' or 'poster'. If you don't see the design type you're looking for, click on the 'more' button (right-hand side) and you'll see a huge array of other design types that you can select.

03. How to use custom dimensions

You can also create a design with your own 'custom dimensions' by clicking the button in the top right-hand corner of your page. Use the drop down menu to choose 'pixels', 'mm' or 'inches'. This is particularly helpful if you're trying to design a graphic for a blog or website.
